Actual result

When attempting to change the product quantity in the cart to 401, an error message appears. The message content is correct, but it does not follow the required phrasing as specified in the requirements.

The error message should say:

"The available purchase order quantity for this product is 400."

The error message displayed is:

"The available purchase order quantity for this product is 300." - this message is shown in the wrong phrasing as per requirements.

Przechwytywanie...

Steps

Step	1
Action	Change the number of products in the cart, e.g. to 20.
Expected result	Product number changed to 20, price recalculated according to the new quantity.
Actual result	Product number changed to 20, price recalculated according to the new quantity.
Status	Passed
Step	2
Action	Change the number of products in the cart to 401.
Expected result	An error message appears "The available purchase order quantity for this product is 400.
Status	Failed
